## TECHNICAL SKILLS

**Frontend:** React.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS

**Backend & Databases:** Node.js, MongoDB, MySQL, REST APIs

**Programming Languages:** Python, Java, C++

## PROJECTS

### Smart Interview Analyzer

*Full-Stack Web App*

- Built an AI-powered interview preparation platform that analyzes user responses and provides real-time feedback.
- Implemented NLP-based evaluation to assess communication clarity, relevance, and confidence in answers.
- Developed a full-stack solution using React.js frontend, Node.js backend, and MongoDB for data storage.

### Health & Fitness Tracker

*Full-Stack Web App*

- Designed a comprehensive fitness tracking web application to help users monitor daily workouts and health metrics.
- Integrated REST APIs for real-time data updates, with personalized dashboard using React.js and Tailwind CSS.
- Enabled data persistence and user authentication using Node.js, MongoDB, and secure session management.

### AI Placement Portal

*AI-Powered Web Platform*

- Developed an intelligent placement assistance platform that matches students with suitable job opportunities using AI algorithms.
- Integrated resume parsing and skill extraction features to automatically assess candidate profiles and recommend roles.
- Built a dynamic dashboard for recruiters and students with real-time application tracking using React.js, Node.js, and MongoDB.
- Leveraged machine learning models to predict placement likelihood and suggest skill improvement roadmaps.
